# MARKETING: Key Terms & Assumptions

## Key Terms and Assumptions

- **Bond Coverage:** Investors will only purchase revenue bonds if they are confident that payments necessary to retire the bonds will occur. For revenue bonds, a conservative projection is that only 50% of projected revenue can be “bonded,” used as payment for initial development costs. That ratio of the total expected revenue to the amount pledged to retire bonds is the “bond coverage.”
- **Business District:** See Attachment from the Illinois Department of Revenue.
- **Cap Rate:** The capitalization “cap” rate is the annual return on an investment. For a bank account, it is the interest payment. For a real estate investment, it is the rent less expenses like taxes, insurance, maintenance, and administration costs. In today’s market, investors expect to make a cap rate of approximately 7.5% on a typical investment..
- **Class 8:** See attached information from the Cook County Assessor.
- **Construction Costs:** For this analysis, construction costs include all site costs other than land. BDI’s recent experience working with cost estimators in other projects served as the basis for estimated amounts. Site conditions or materials changes could make these costs vary by as much as 20%.
- **Corporate Bonds:** Well-financed developers can advance funding to a project to fill the gap between market rate development and a specific project’s costs. That loan is in the form of a corporate bond that is paid back at a rate negotiated as part of a development agreement. Typically the funds for repayment come from the project revenues in excess of annual bond repayment.
- **Land Costs:** Recent sales in this area support a land price of \$250,000 per acre.
- **Property Tax:** To estimate taxes, this report uses the Cook County Clerk’s most recent release listing Olympia Fields all taxing bodies rate at 9.827 and the Village rate at 0.346.
- **Revenue Bond:** A revenue bond relies solely on a projected income source and does not rely on any guarantees. For municipalities, the alternative is a general obligation bond that a Village guarantees will be paid even if the underlying revenue never materializes.

# DESIGN GUIDELINES: Glossary of Terms

## OLYMPIA FIELDS DESIGN GUIDELINES – GLOSSARY OF TERMS

---

**Aesthetic:** Pertaining to art, taste, or beauty.

**Appearance:** The outward aspect visible to the public.

**Appropriate:** Sympathetic, or fitting, to the context of the site and the whole community.

**Appurtenances:** The visible, functional object accessory to and part of buildings.

**Architectural Character:** The composite or aggregate of the characteristics of the structure, form, materials, and function of a building, group of buildings, or other architectural composition.

**Architectural Feature:** A prominent or significant part or element of a building, structure, or site.

**Architectural Style:** The characteristic form and detail, as of buildings of a particular historic period.

**Attractive:** Having qualities that arouse interest and pleasure in the observer.

**Awning:** A temporary and movable covering extending from a building to over the sidewalk or entrance; usually made of a fabric-type material.

**Bay:** That compositional and structural subdivision of building which, through repetition, makes up the total design of a building.

**Berm:** A raised form of earth to provide screening or improve the aesthetic character of the grade.

**Bufferyard:** A landscaped area or strip intended to separate and partially obstruct the view of two adjacent land uses or properties from one another.

**Canopy:** Permanent awning made out of a solid material; used in the building design.

**Coherent:** Easily appreciated visually by reason of consistency and compatibility; i.e., everything obviously belonging together.

**Cohesiveness:** Unity of composition between design elements of a building or a group of buildings and the landscape development.

**Column:** A long vertical structural member that supports a load. In classical terms, a cylindrical support having a base, shaft and capital.

**Compatibility:** Harmony in the appearance of two or more external design features or elements in the same vicinity.

**Conservation:** The protection and care which prevent destruction or deterioration of historical or otherwise significant structures, buildings, or natural resources.

**Context:** Aesthetic character or vicinity of an area under review; Surroundings, background for some object.

**Coping:** 1. A protective capping or covering at the top of a masonry wall. 2. A horizontal member which together with the balusters supporting it constitutes a balustrade.

**Corbel:** A bracket of brick or stone built out from a wall.

**Cornice:** Any projecting ornamental molding along the top of a building.

**Crosswalk:** Any instance where a sidewalk crosses a public street or private driveway. Crosswalks may be at intersections or at mid block locations.

**Decorative Screen:** A wall or fence intended to partially or entirely cut off visibility to the area behind it.

**Design Concepts:** Refers to architectural and site planning and to the analysis of the whole structure in terms of form, proportion, color, material, and textures.

**Dormer:** A roofed structure with a vertical window that projects from a pitched roof.

**Eaves:** The lower edge of a sloping roof, projecting beyond the wall.

**Element:** A device used to create an image.

**Elevation:** The view of a side of a building. An accurate drawing of one side of a building that represents its true dimensions in the planes perpendicular to the line of sight.

**Exterior Building Component:** An essential and visible part of the exterior of a building.

**External Design Feature:** The architectural style and general arrangement of such portion of a building or structure as is to be open to view from a public street, place, or way, including the kind, color, and texture of the building material of such portion and the type of windows, doors, and lights attached, or ground signs and other fixtures appurtenant to such portion.

**Facade:** The elevation or exterior face of a building.

**Finial:** An ornament at the top of a spire, pinnacle, gable, post, or other architectural element, to serve as its terminal feature.

**Gable:** The portion of the vertical end wall of a building above the eaves line to the ridge, generally but not necessarily triangular in shape.

**Gateway:** A means of entrance or access.

**Graphic Element:** A letter, illustration, symbol, figure, insignia or other device employed to express and illustrate a message or part thereof.

**Harmony:** A quality which represents an appropriate and congruent arrangement of parts, as in arrangement of varied architectural and landscape elements.

**Landscape:** Plant materials, topography, and other natural physical elements combined in relation to one another and to man-made structures.

**Legible:** Easy to read or decipher.

**Light Cut-Off Angle:** An angle from vertical extending downward from a luminary which defines the maximum range of incident illumination outward at the ground plane.

**Line:** Refers to the vertical and horizontal alignment of architectural features that occur on individual building facades and on adjacent building fronts.

**Lintel:** A horizontal beam spanning an opening.

**Local Architecture (or Vernacular Architecture):** A building form native to a locale and derived from simple and direct adaptation to functional needs, using the materials and methods at the command of local builders, without regard for formal or precise stylistic notion, but based on tradition and practicality.

**Mass:** A simple, three-dimensional building volume. A solid object that occupies space.

**Massing:** A combination of several masses to create a building volume organization of the shape of a building as differentiated from wall treatments, windows, and so on.

**Mechanical Equipment:** Equipment, devices and accessories, the use of which relates to water supply, drainage, heating, ventilating, air conditioning and similar purposes.

**Module:** That unit of a design by which all other elements of the design are proportioned. In classical architecture, the half diameter of a column was used as a module.

**Monument Signs:** Signs that are free-standing on the ground and supported by some structural element, such as a wall.

**Mullion:** A vertical member subdividing a window opening into separate lights.

**Palette of Materials:** The spectrum or series of materials used within the design guidelines.

**Parapet:** A solid wall of handrail height placed at the edge of a roof, balcony, or other similar horizontal surface.

**Plan:** A two-dimensional view of a building or landscape. A precise drawing showing the arrangement of the design, including wall openings and dimensions and planting locations.

**Plant Materials:** Trees, shrubs, vines, ground covers, grass, perennials, annuals, and bulbs.

**Positive Image:** An image that builds on the historical and traditional character of Olympia Fields.

**Private Landscape Zones:** Privately owned areas within and directly around commercial buildings that provide some level of personal privacy and security.

**Semi-Public Landscape Zones:** Spaces that share both public and private activities; yards between parking areas, sidewalks, and parkway areas. Maintained principally by private property owners but in full view of the public.

**Public Landscape Zones:** These include public sidewalks, parkways, and Village owned open space areas.

**Proportion:** Balanced relationship of parts of a building, landscape, structures or buildings to each other and to the whole.

**Renovation:** The interior or exterior remodeling of a structure, other than ordinary repair.

**Rhythm:** The pattern of occurrence of related elements.

**Scale:** Proportional relationship of the size of parts to one another and to the human figure.

**Screening:** Structure or planting which conceals from view from public ways the area behind such structure or planting.

**Shrub:** A multi-stemmed woody plant other than a tree.

**Siding:** Boards applied to an exterior wall, each of which overlaps or meets the one below it to create a continuous skin over the frame of a building.

**Site Furnishings:** Elements of street improvements that are additive elements such as light fixtures, benches, trash cans, and planters. The term applied to physical improvements and equipment used in outdoor spaces used for purposes of security, traffic control, and amenity.

**Site Plan:** An accurately scaled drawing of a site (lot or parcel) as if seen from above, describing the property, boundary, orientation and location of buildings, drives, parking areas, walkways, and other constructed site improvements. Includes vegetation, new plantings and contour intervals.

**Streetscape:** The scene as may be observed along an public street or way composed of natural and built components, including buildings, paving, planting, street hardware and miscellaneous structures.

**Street Wall:** Any wall fronting a street. A street wall line extends outward, from the outermost points of each building's street wall, parallel to the street, until such extensions of said line intersect the side and/or rear property line, encircle the building, or intersect another wall line. (If a building has a rounded front or the building is on an irregular shaped lot, the points of the street wall closest to the side property lines shall be used to determine the street wall line.)

**Structure:** Anything constructed or erected, the use of which requires permanent or temporary location on or in the ground.

**Symmetry:** Having parts similar in shape and measurement identically arranged on opposite sides of a center line (axis).

**Texture:** The arrangement of particles or constituent units of any material or grouping as it affects the appearance or feel of its surface or context.

**Utilitarian Structure:** A structure or enclosure relating to mechanical or electrical services to a building or development.

**Utility Service:** Any device, including wire, pipe, and conduit which carries gas, water, electricity, oil, and communications into a building or development.

**Vehicular Use Areas:** All areas subject to vehicular traffic including accessways, driveways, loading areas, service areas, and parking stalls, but excluding covered parking structures and underground parking.

**BUSINESS DISTRICT TAX BRIEFING SHEET**

**Local  
Governments'  
Guide  
to  
Tax  
Allocations**

**Business District Development and  
Redevelopment Sales Tax**

**What is the  
Business District  
Sales Tax?**

This is a tax designed to fund the development or redevelopment of certain designated areas within a municipality. The municipality may impose this tax if it has a development or redevelopment plan for an area of the municipality that

- is contiguous (the properties within the area border each other),
- includes only parcels of real property that will directly and substantially benefit from the proposed plan, and
- is blighted, as defined in the Illinois Municipal Code, 65 ILCS 5/11-74.3-5(3).

If a municipality chooses to impose this tax, it must impose both a Retailers' Occupation Business District Tax and a Service Occupation Business District Tax.

**Is voter approval  
required before  
implementation?**

No, voter approval is **not** required.

**What must a  
municipality do to  
establish this tax?**

The corporate authorities of the municipality must hold public hearings at least one week before designating the business district. The municipality must then file a certified copy of the proper ordinance with the Illinois Department of Revenue.

**Note:** An ordinance or resolution is also required to change or discontinue this tax.

**What is the  
deadline for filing  
the ordinance?**

If the department receives a certified copy of the proper ordinance **and all additional required information** on or before

- April 1, we will administer and enforce the tax beginning the following July 1, and
- October 1, we will administer and enforce the tax beginning the following January 1.

**What additional  
information is  
required?**

**The information you must provide to the department** before the business district tax for your municipality can take effect is explained below.

Any municipality that has met the requirements to establish a business district and adopted an ordinance imposing both a Retailers' Occupation Business District Tax and Service Occupation Business District Tax must provide the Illinois Department of Revenue with

- a certified copy of the ordinance imposing both the retailers' and service occupation taxes for the business district.
- a detailed map of the business district. This map will be put on the department's web site to assist retailers in determining if they are located within the business district.
- a copy of the development or redevelopment plan for the business district.
- a detailed list of each address located within the district's boundaries. The list must contain the street name, street number, city, state, and zip code for each piece of property located within the district. This is the information the department uses to notify retailers they are within a business district and are required to collect additional tax.

## Business District Development and Redevelopment Sales Tax

---

### What review process does the department follow for the information submitted?

**Each ordinance will be reviewed for approval by two offices in the department.**

When needed, each office will work with you to bring the requirements into compliance. You will receive a separate notification of approval from each of these offices. The process we follow is explained below:

- The Legal Services Office determines if the ordinance language is legally sufficient to impose the tax. During this process, it is possible the department may find that an amendment to the ordinance language is required. You will be notified in writing of the Legal Service Office's determination.
- The Local Tax Allocation Division (LTAD) determines whether the address list is approved or denied. During this process, you will be asked to verify information we provide and make any required corrections or changes.
  - LTAD will compare the address list you provided to the most current address information from the United States Postal Service (USPS).
  - After verification, we will return the entire list to you. If the USPS address is different from the one submitted on your list, we will list both addresses. You must determine which address we should use, verify the rest of the addresses, and return the verified list to LTAD.
  - From your approved list, we will provide you a list (Taxpayer Listing by Business Address) of any retailers doing business at those addresses. If you find errors or omissions, contact LTAD to resolve the problem. You will be required to confirm that the list of retailers is correct and return the verified list to LTAD.

Once your municipality has received approval from both of our offices (Legal Services and Local Tax Allocation) the department will notify all affected retailers of this rate change. We mail a letter to both the business district site location and the company or preferred mailing address that is on file with the department.

### How time sensitive is the information I submit?

**Time is critical to ensure that a business district sales tax rate takes effect on the intended date.** January 1 and July 1 are the only dates that business district sales taxes can be imposed or changed. For 45 days following the deadline for filing an ordinance with us (either April 1 or October 1), the department collects all rate changes and prepares an official notice of rate change. We send rate change notices to affected retailers 30 days in advance of the rate change.

If the approval process is not completed in time, the tax increase requested by your municipality may be delayed until the next implementation date.

### To what sales does the tax apply?

You must collect business district sales tax on the same items of general merchandise reported on Line 4a of Form ST-1 and Form ST-2. The sales that are subject to state sales tax are also subject to business district sales tax. Business District Sales Tax must be collected on general merchandise sold within the business district whether the merchandise is sold at retail or transferred as a part of a sale of service.

## Business District Development and Redevelopment Sales Tax

### What types of sales are *not* subject to this tax and will *not* generate more revenue?

Business district sales tax **does not** apply to

- sales of qualifying food, drugs, and medical appliances\* (reported on Line 5a of Form ST-1 and Form ST-2), or
- items that must be titled or registered by an agency of Illinois state government (reported on Form ST-556, Sales Tax Transaction Return).

### At what rate and for how long can the tax be imposed?

Business District Sales Tax may be imposed in 0.25% increments and cannot exceed 1%. The tax can be imposed for no longer than 23 years.

### How are retailers notified about this tax?

The department sends each retailer within the business district, a letter informing them of the tax rate and the date the rate takes effect.

In addition, twice a year, when rate changes take effect, the department issues an informational bulletin providing the affected locations and the new rates. The bulletin includes rate changes for business districts.

### Can we get a listing of only those retailers located within the business district?

Yes, we will provide local governments or municipalities that information. Please contact our office at the address or phone number below.

LOCAL TAX ALLOCATION DIVISION  
ILLINOIS DEPARTMENT OF REVENUE  
101 WEST JEFFERSON  
SPRINGFIELD IL 62702

217-785-6518  
217-524-0526 fax

### Will we get a separate check for the distributions from this tax?

Yes, the check you receive from the State Treasurer will be separate from other allocations. The municipality must deposit this money into a special "Business District Tax Allocation Fund" to be used for paying eligible costs associated with the business district project.

## **Business District Development and Redevelopment Sales Tax**

---

**When will the municipality receive its first tax collection?**

For taxes imposed effective January 1, the first disbursement will be made to local governments during the following April. For taxes imposed effective July 1, the first disbursement will be made to the local governments during the following October.

## **CLASS 8 ELIGIBILITY BULLETIN**

### ***The Class 8 Incentive and Its Benefits***

The Class 8 real estate tax incentive established by the Cook County Real Property Assessment Classification Ordinance ("Ordinance") is designed to encourage industrial and commercial development in areas of the County which are experiencing severe economic stagnation. Class 8 is structured to permit the Assessor, upon application of the local governing body, to certify that such areas are in need of substantial revitalization and/or are located within an Enterprise Community (as approved by the County Board on June 22, 1994) or an Empowerment Zone (as approved by the Chicago City Council on May 18, 1994). In addition, pursuant to an amendment to the Classification Ordinance, property located in any of the five townships targeted by the South Suburban Tax Reactivation Pilot Program (Bloom, Bremen, Calumet, Rich and Thornton townships) is eligible for Class 8 without any application for certification of an area. Within a certified Class 8 area (the "Subject Area"), or within one of the five townships targeted by the South Suburban Tax Reactivation Program, all subsequent new construction, substantial rehabilitation or reutilization of abandoned buildings, developed or reoccupied for industrial or commercial use, may qualify for the Class 8 incentive.

This incentive assesses qualifying real estate at a reduced assessment level for a period of twelve years from the date that new construction or substantial rehabilitation is completed and initially reassessed or, in the case of abandoned property, from the date of substantial reoccupation. Class 8 assessment levels are 16% of market value for ten years, 23% in year eleven and 30% in year twelve. This constitutes a substantial reduction from the thirty-six percent (36%) and thirty-eight percent (38%) levels at which industrial and commercial properties are commonly assessed. For industrial property only, the incentive may be renewed, as described below on page 6.

"In need of substantial revitalization" is defined in the Classification Ordinance as follows:

"An area no less than 10 contiguous acres or more than 1 contiguous square mile in size which is in a state of extreme economic depression evidenced by such factors, as defined in the rules and regulations as promulgated by the Office of the Cook County Assessor, among others, as (a) substantial unemployment; (b) a low level of median family income; (c) aggravated abandonment, deterioration, and underutilization of properties; (d) a lack of viable industrial and commercial buildings whose absence significantly contributes to the depressed economic and unemployment conditions in the area; (e) a clear pattern of stagnation or decline of real estate taxes within the area as a result of its depressed condition; (f) a manifest lack of economic feasibility for

private enterprise to accomplish the necessary modernization, rehabilitation and development of the area without public assistance and encouragement; and (g) other factors which evidence an imminent threat to public health, welfare and safety." [Section 1(B)(12)]

The reduced assessment classification applies to new construction and reoccupied "abandoned" properties in their entirety, including the land upon which they are located. For projects involving substantial rehabilitation of existing structures, the reduced assessment level applies only to the added value attributable to the rehabilitation of the structure. If vertical or horizontal square footage has been added to the improvements, the land will also receive the incentive level of assessment, in the proportion that the square footage added by the rehabilitation bears to the total square footage of the improvements on the parcel.

Under the Ordinance, "abandoned property" qualifies if it consists of:

"Buildings and other structures that, after having been vacant and unused for at least 24 continuous months, have been substantially rehabilitated or purchased for value by a purchaser in whom the seller has no direct financial interest." [Section 1(B)(11)] An exception to this shall be, "if the municipality or the Board of Commissioners, as the case may be, finds that special circumstances justify finding that the property is 'abandoned' for purpose of Class 8, even though it has been vacant and unused for less than 24 months...the approval of the Board of Commissioners of Cook County is required to validate such shortened period of qualifying abandonment..." [Section 2 Class 8]

### ***Application Procedure for Certification of an Area***

An Application seeking certification of an area as Class 8 can be filed only by the municipality in which the area is located, or by the Cook County Board of Commissioners if the property is located in an unincorporated area. The municipality or the County Board, as the case may be, must first adopt a resolution or ordinance stating that the Subject Area is in need of revitalization and that, without public assistance, development of the area cannot be accomplished. For an application for Class 8 certification of the area, a certified copy of the resolution or ordinance must be submitted to the Assessor along with data satisfying the Classification Ordinance definition of an area "in need of substantial revitalization". The application must include ample documentation of the depressed condition of the Subject Area and the surrounding "community area".

"Community area" is defined in Section 1(B)(10) of the Ordinance as:

"An area within the City of Chicago so designated and identified by the Social and Economic Characteristics of Chicago's Population: Community Area Profiles, December, 1992, or revisions thereto, or in Cook County outside the City of Chicago, as defined by the municipality concerned or by the County in unincorporated areas." [Section 1(B)(10)]

The seven Section 1(B)(12) factors indicating an area "in need of substantial revitalization", with suggestions for documentation (all data should cover at least 6 years), are as follows:

A. Substantial unemployment

Data relating to this condition is available from the Illinois Department of Employment Security for municipalities and community areas. The data should demonstrate a pattern or trend of employment below levels found in the rest of the County.

B. A low level of median family income

Data for this condition is in the Social and Economic Characteristics of Chicago's Population: Community Area Profiles, December, 1992, for the City of Chicago and in the U.S. Census of Population and Housing, for suburban areas. Data might also be presented showing a pattern or trend of above average, poverty level income in the area.

C. Aggravated abandonment, deterioration, and underutilization of properties

For residential property in the subject or surrounding areas, data for this condition will be found in the Housing Characteristics of Chicago's Households: Community Area Profiles, December, 1992. For commercial and industrial property, studies by realtors, financial institutions, appraisers and developers may be used.

D. A lack of viable industrial and commercial buildings whose absence significantly contributes to the depressed economic and employment conditions in the area

As in item C, subject and surrounding area data for this condition may be gathered from commercial and industrial realtors, financial institutions, appraisers and developers.

E. A clear pattern of stagnation or decline of real estate taxes within the area as a result of its depressed condition

Documentation for this condition may be gathered from data on real estate taxes and assessments, delinquencies, tax sales and forfeitures for properties in the subject and surrounding areas.

F. Manifest lack of economic feasibility for private enterprise to accomplish the necessary modernization, rehabilitation and development of the area without public assistance and encouragement

Data for this condition may be gathered from surveys of the area indicating trends in new construction, rehabilitation and abandonment and for trends of business movement into and out of the area. The source and extent of any public assistance given in the subject and surrounding areas should be identified.

G. Other factors which evidence an imminent threat to public health, welfare and safety

Other data relating to general socio-economic factors in the subject and surrounding areas may be included here, such as crime statistics, fire statistics and building code violations.

Proof of "need [for] substantial revitalization" factors is cumulative and the Assessor need only be convinced that the overall pattern indicates economic stagnation. The absence of one of these factors, therefore, will not necessarily defeat the Class 8 Application. Since the Assessor may consider data for the "community area" surrounding the Subject Area, the local government should include this information in its Application. Also, factors evidencing the need for substantial revitalization, which are significantly more severe in the subject or surrounding areas than in the County as a whole, are of special importance in the Assessor's review of the Application.

In addition to the data evidencing the need for "substantial revitalization", the following documentation should also be supplied to the Assessor:

1. Five copies of the Application.
2. A current Sidwell map to a scale of 200 feet per inch, mounted and covered by acetate, clearly marked to identify the precise boundaries of the Subject Area. Permanent Index Numbers (PINS) should be current and undivided (partial PINS are not acceptable unless covered by a division petition on file with the Assessor's Office).
3. Four soft copies of the Sidwell map described above.
4. A plat of survey or other document verifying the total acreage of the Subject Area.
5. A description and map of the "community area", if the Subject Area is located in the City of Chicago, or of the municipality, if located in an area outside of Chicago.

Finally, while the municipality or the County Board is the formal applicant for Class 8 designation of an area, the community as a whole is the anticipated beneficiary. Other interested parties, including developers and community groups, may provide information in support or toward completion of an Application.

The Assessor will review the Application and supporting data and determine whether the area should be certified as "in need of substantial revitalization". Once granted, the certification will continue for five years and may be extended for one additional five-year period upon reapplication by the local government. Such application for an extension must be filed during the period between one year and six months prior to expiration of the initial five-year period. The Assessor will notify the local government one year prior to the expiration of the initial five-year period.

### ***Application Procedure for Individual Properties***

Once the Subject Area has been certified as "in need of substantial revitalization", individual property owners and developers within the area may apply to the Assessor for Class 8 classification for any new construction, substantial rehabilitation or reoccupancy of abandoned property for industrial or commercial use. Individual applications may similarly be made for properties located in any of the townships targeted by the South Suburban Tax Reactivation Program. The Class 8 Incentive Application for an individual property must be accompanied by a certified copy of an ordinance or resolution by the local government (or the County Board if the property is located in an unincorporated area) stating that the specific project is consistent with an overall plan for rehabilitation of the area. If a resolution is unavailable at the time the application is filed, a letter from the municipality or the County Board stating that a resolution or ordinance supporting the incentive has been requested must be filed instead. If at a later date the municipality or the

County Board denies the applicant's request for a resolution or ordinance, the applicant will be deemed ineligible for the Class 8 incentive, whether or not construction has begun. In all circumstances, the resolution must be submitted by the time the applicant files a "Real Estate Assessed Valuation Appeal" (form 4818) requesting the actual class change. A copy of a municipal resolution or ordinance will be forwarded by the Assessor's Office to the secretary of the Cook County Board of Commissioners for distribution to the Commissioners from the affected districts.

Individual Class 8 applications for properties located within an already certified Class 8 area, or properties located in one of the townships targeted by the South Suburban Tax Reactivation Program, must be filed prior to the commencement of construction, rehabilitation or reoccupation. Upon completion of construction or reoccupation, the applicant must submit a "Real Estate Assessed Valuation Appeal" (Form 4818), requesting that the property be reclassified to Class 8.

The following documentation should be submitted in support of an individual Class 8 application:

- A. A property description including the address, permanent index number(s), legal description, site dimensions and square footage, and building dimensions and square footage.
- B. A complete list of all owners, developers, occupants and other interested parties (including partnership owners and beneficiaries of a land trust) identified by name, address and nature and extent of interest.
- C. A precise description of any industrial and commercial use of the property along with non-industrial or non-commercial uses, and the zoning specifications for the property.
- D. Special information relating to the type of development planned, as follows:
  1. For new construction or substantial rehabilitation:
    - a. a current plat of survey (if available)
    - b. floor plans or schematic drawings
    - c. building permits, occupancy permits and wrecking permits with date of issue, when available (building permit and occupancy permit will be required in the post construction application)
    - d. proposed date of construction start
    - e. a description of the extent of construction or rehabilitation, and the estimated cost.
    - f. the estimated date of completion
  2. For reutilization of abandoned property:
    - a. Evidence of the duration of abandonment. This may be satisfied by affidavits and records such as utility bills, Internal Revenue Service statements, certified business records, records of building code violations, etc.
    - b. Evidence of purchase for value, such as a sale contract, recorded deed, assignment of beneficial interest, or real estate transfer declaration, or closing statement.

- c. Evidence of reoccupancy, such as sworn statements by persons with knowledge, occupancy permits and utility statements.
- d. For reutilization of property where the duration of abandonment has been less than 24 months:
  - A copy of the finding of the municipality in which the real estate is located (or the County Board if the property is located in an unincorporated area) stating its approval of the less than 24 month abandonment period as well as a specification of the circumstances underlying its finding must be included in the resolution or ordinance supporting the incentive and must be filed at the time of the Class 8 Incentive Application for an individual property.
  - Where the finding is by a municipality, a resolution from the County Board stating its approval of the shortened period of abandonment must also be filed at the time of the Incentive Application.

During the term of the incentive, the Class 8 recipient must file a triennial affidavit attesting to the use of the property and the number of workers employed at the Class 8 site. The Assessor will mail the affidavit to the Class 8 recipients at the time of their triennial reassessments. The affidavit must be verified and returned to the Assessor within three weeks. Failure to file the triennial report within that time will result in the loss of the incentive.

For industrial properties only, Class 8 classification may be renewed during the last year in which a property is entitled to a 16% assessment level. A renewal application must be filed, along with a certified copy of a resolution or ordinance adopted by the municipality in which the real estate is located (or by the County Board, if the property is located in an unincorporated area of Cook County). The resolution or ordinance must expressly state that the municipality or County, as the case may be, supports and consents to the renewal of the Class 8 incentive and that it has determined that the industrial use of the property is necessary and beneficial to the local economy. The notice of intent to request renewal will be forwarded by the Assessor's Office to the Cook County Board. The owners must notify the Assessor's Office of their intent to request this renewal prior to their requesting a resolution or ordinance from the municipality or County Board. The number of renewal period requests is not limited.

Questions about the Class 8 incentive program may be directed to the Development Incentives Department of the Cook County Assessor's Office, Room 320, 118 N. Clark St., Chicago, IL 60602, (312) 603-7529.

# TIF BRIEFING SHEET

To encourage reinvestment, the Village may decide to consider the use of Tax Increment Financing (TIF). TIF is a mechanism authorized by State Statutes by which public improvements and incentives can be funded to achieve the desired redevelopment and planning objectives. TIF financing may be one way to make the Lincoln Highway/Western intersection feasible for redevelopment by eliminating the conditions which inhibit private investment, weaken the Village's tax base, affect the safety of community residents, and hinder the Village's ability to promote a cohesive development of compatible land uses.

The Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11 - 74.4 - 1, et seq., as amended (the "Act"), stipulates specific procedures which must be adhered to in designating an area for TIF. A Redevelopment Project Area is defined as "...an area designated by the municipality, which is not less in the aggregate than 1½ acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area, or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas" (65 ILCS 5/11-74.4-3(p)).

To implement a TIF for the area, the Village will need to conduct a study to determine the eligibility of the study area as either a conservation or a blighted area. Assuming the area is TIF eligible, a redevelopment plan will be required, outlining what type of redevelopment is proposed and what type of TIF eligible incentives will be used. This plan must clearly note why redevelopment would not occur on it's own without financial assistance from a TIF. All of this material is then reviewed with the other taxing bodies at a Joint Review Board meeting. A public hearing is also required prior to the Village enacting a TIF for the area.
